Cookies Policy

- **Cookies Policy**
  - A cookie is a small file which asks permission to be placed on your computer's hard drive and helps analyse web traffic, or lets you know when you visit a particular site.
  - ePressPack uses traffic log cookies to identify which pages are being used. This helps us analyse data about web page traffic and improve our website in order to tailor it to visitor needs. ePressPack only uses this information for statistical analysis purposes and then the data is removed from the system. WordPress, which is used by ePressPack, may also use cookies when you comment on a blog post to identify you on return visits. ePressPack does not use this information for any other reason.
  - Overall, cookies help ePressPack provide you with a better website, by enabling ePressPack to monitor which pages you find useful and which you do not. A cookie in no way gives ePressPack access to your computer or any information about you, other than the data you choose to share with us.
  - Most web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. This may prevent you from taking full advantage of the website.

- **Below is a table with the cookies ePressPack places on your computer**

__utma __utmb __utmc __utmt __utmv …	Google Analytics cookies for a logged in user. See more information at: https://developers.google.com/analytics/devguides/collection/analyticsjs/cookie-usage#gajs
wordpress_ wordpress_logged_in_ …	WordPress cookies for a logged in user.
wordpress_test_cookie	WordPress test cookie
wp-settings-	WordPress also sets a few wp-settings-[UID] cookies. The number on the end is your individual user ID from the users database table. This is used to customize your view of admin interface, and possibly also the main site interface.
wp-settings-time-	WordPress also sets a few wp-settings-{time}-[UID] cookies. The number on the end is your individual user ID from the users database table. This is used to customize your view of admin interface, and possibly also the main site interface.
